

# Spectrum Solutions is actively seeking strategic acquisitions & partnerships

## Spectrum Solutions Overview:

Spectrum Solutions, LLC (“Spectrum” or “Company”) is a global molecular diagnostic testing company. Specialized in whole saliva sample collections and other bio-sampling methods, the Company has become one of the largest manufacturers of whole saliva sample collection kits for diagnostic testing. As a fully integrated developer of molecular diagnostic testing solution with injection molding expertise and prototyping capabilities, Spectrum focuses on pioneering medical device and diagnostic testing innovations.

Headquartered in Draper, Utah, Spectrum supports clients and partners across North America and the globe. By leveraging its industry leading expertise for clients such as Ancestry, the Company entered the clinical research segment with its technically superior whole saliva collection device to provide support for the complex DNA sequencing needs of top-tier research institutions.

The Company’s continuous growth is fueled by Spectrum’s experienced leadership team and accomplished sponsor, DW Healthcare. Focused on expanding its strong innovation engine to broaden the firm’s capabilities and drive the commercialization of its whole saliva diagnostic platform, the team seeks to partner with and acquire companies additive to its core capabilities. Specifically, the team seeks to add talent and know-how, gain access to new end markets, and expand its product portfolio.
